SUBJECT: Weekly Report for Week Ending 20 November 1987

2. On 16 November, an Information Technology Officer provided a briefing and tour of the Communications Operations Center and Crisis Communications Center to [redacted] Special Assistant to the DCI, and [redacted] Special Counsel to the DCI. The Director of Information Technology accompanied Messrs. [redacted] during the briefing and tour.

3. Secure communications support was provided by Information Technology Officers to the DCI [redacted]

4. Officers from the Office of Information Technology and the Office of Communications began testing the Headquarters interface for the Time and Space Products (TSP) 4000 telephone. The TSP 4000 is a small portable secure voice telephone that simulates the operations of a cellular phone. The TSP 4000 will be used in the interim, as the Secure Telephone Unit (STU) III project progresses, to support secure communications for the DCI, DDCI and other Agency VIP's. A test call from the TSP 4000 to the Secure Voice Operators (SVO) was successful. [redacted]

5. On 16 November, the Chief and Senior Engineer from the Office of Logistics' New Building Project Office conducted a tour of the New Headquarters Building for members of the DA Management Staff. On a scheduled stop at the New Building Computer Center they viewed the recently installed command center modules and were briefed by a Senior Information Technology Officer regarding the operational concept of the command center. [redacted]
